HACKNEY HOMELESS FESTIVAL '94

Welcome to The Hackney Homeless People's Festival '94

Once again, The Hackney Homeless People's Festival is brought to you by people who are, or have been, homeless. As well as the huge range of entertainments on offer today, we are also pleased to be able to bring you a wide range of information about homelessness - its causes and possible solutions. Please visit the Alternative Ideal Homes Exhibition and Information Area to find out how you can get involved.

Homelessness is not just about sleeping rough. The homeless can be people staying in hostels or temporary accommodation; those occupying properties that would otherwise remain empty; as well as people living under constant threat of physical, sexual or emotional abuse from their families, landlords or fellow tenants. A home means security, a sense of belonging, privacy and stability. Homelessness is caused by a lack of decent, affordable homes: it is a housing problem - not a people problem.

The situation is deteriorating and will not improve until the root causes of homelessness are recognised and tackled. Secure and affordable homes must be developed in all our communities. Decent housing is the foundation on which our lives are built.

While 864,000 properties stand empty - a new all time high - the Government is intent on reducing the housing choices available to vulnerable people. Two proposed pieces of legislation are set to make the situation even worse: Firstly the Government aim to remove rights to permanent housing for homeless people altogether and, secondly, The Criminal Justice Bill contains measures which aim to outlaw nomadic living and criminalise the occupation of unused houses by squatters.

The housing crisis is now worse than ever. This festival is one of many attempts by homeless people to bring to the attention of the public the scale and nature of the problem. We hope you will enjoy the many entertainments on offer today and that you will leave with a greater understanding of the issues involved. Together we can create change.

With thanks to **HACKNEY DRUGS PREVENTION TEAM** and **HACKNEY COUNCIL** for sponsorship and support.

This festival has been organised entirely by volunteers. We are very grateful to all the individuals and organisations who have contributed their time and money. Stewards with collecting buckets will be wandering the site taking your donations towards the costs of today's festival. Please give generously. **THANK YOU.**

The Alternative Ideal Homes Exhibition and Homelessness Information Area.

The misery of homelessness looks set to remain with us for years to come. Without a massive building and redevelopment programme dedicated to producing good quality, low cost homes for rent, the number of homeless people will continue to rise. Many organisations are working to ease the suffering of the homeless and homeless people themselves are taking action to improve their situations in a wide variety of ways. This exhibition shows the range of approaches to the crisis and serves as an alternative to the materialism of the official Ideal Homes Exhibition. It features performances and plays, homelessness support groups, alternative dwellings, housing charities and information, film shows, self-build housing groups, travellers homes, photo exhibitions, arts, displays and much more... None of these organisations claims to have solved the problem of homelessness, but all are working to deal with the grim reality of life without home, security and community.

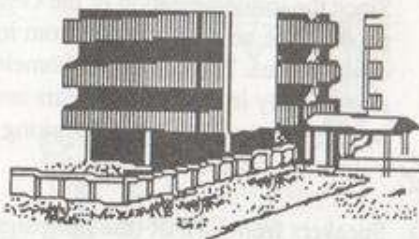

CENTREPOINT, SOHO, a housing charity and hostel based in the West End of London, works with many young people who have become homeless after leaving local authority care or who have fled from violent and abusive families. Life on the streets of London is tough - but seems preferable to the hells these young homeless people are fleeing from. Visit the CENTREPOINT, SOHO stall to find out more...

There are up to two million people in Britain who are homeless, at risk of homelessness or forced to share with other people.

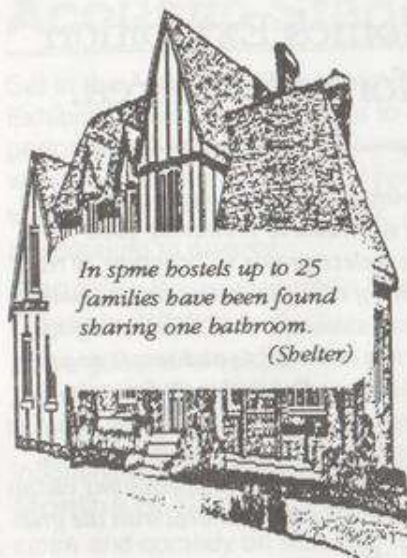

(Shelter)

Formed in response to the scandal of homelessness in the 1960's, SHELTER is Britain's largest housing charity and - sadly - its work remains as necessary as ever. A recent Government Green Paper may lead to the removal of rights to permanent housing for all homeless families. Find out how SHELTER and SHELTER NIGHTLINE work every day of the year to help homeless people.

CLAYS LANE HOUSING CO-OP is Europe's largest co-operatively run housing project. Visit their information stall to find out how it works - and how you may be able to join.

Built entirely from recycled materials, the CARDBOARD HOUSE is a fully self-

In some hostels up to 25 families have been found sharing one bathroom.

(Shelter)

supporting intelligent life-form. Shed-U-Like telepathically responds to your slightest desire.

Sponsors of today's Festival, THE HACKNEY DRUGS PREVENTION TEAM will be on hand with a stall and display about their work. Worth a visit? - yes!

A variety of acoustic entertainments can be found on the ANOMIE STAGE throughout the day, including MICHELLE PHILIPS' one-woman play, "WICKED". Details can be found by the stage.

Have you ever dreamt of building your own home at a price that won't leave you broke? Slide-shows and information from the WALTER SEGAL TRUST and CHISEL can

help get your dream home started - It can be done -DIY Big Stylee.

CHAOS CAFE - delicious food in a double decker cafe.

London's premier housing advisors SHAC are hosting a stall. Check out the display of their work.

Welcome to THE VILLAGE - an exhibition of homes unlike any built by Barratt and Co! Featuring tipis, benders, a geodesic dome, a yurt, a grass hut, a converted bus and more, THE VILLAGE is the spiritual centre of the Alternative Ideal Homes Exhibition.

Since the implementation of the Government's "care in the community" policies, many people have been discharged from institutions into unsuspecting and ill-prepared communities. The number of homeless people with mental health problems has risen dramatically in the last few years and the CITY AND HACKNEY MIND stall shows how this national charity is working locally to support some of Britain's most vulnerable people.

Speakers from CHAR (the campaign for the single homeless), THE NATIONAL ROMANI RIGHTS ASSOCIATION, SQUASH, and THE CAMPAIGN FOR BEDSIT RIGHTS will be appearing on stages throughout the festival and throughout the day. They will also be speaking in the Alternative Ideal Homes/Information Area - see notice board for times and details. THE NATIONAL ROMANI RIGHTS ASSOCIATION are also hosting a stall so drop by for a chat.

"Short-life Housing Equals Logical Living" - according to the snail-trail at SHELL.

This exhibition shows that empty properties can be used for the benefit of their owners as well as the homeless. Mutually beneficial licensing agreements can be negotiated between the owners of empty properties and potential tenants. Find out about living in a SHELL and discover the joy of short-life housing.

Without a job it can be impossible to find a deposit for somewhere to live - and without somewhere to live it can be impossible to get a job. For many people this cycle of hopelessness and homelessness can - and must - be broken. FOYER offers a solution to this trap which recognises the complexity of problems facing homeless people. Come to the FOYER display to find out more.

Despite what the press may have you believe, there's nothing new about New Age Travellers. A photo exhibition in The Village shows 20 YEARS OF TRAVELLING from the travellers' side of the lens. The Criminal Justice Bill seeks to outlaw the nomadic way of life and eradicate this alternative to urban homelessness. Visit this exhibition - and the FRIENDS, FAMILIES AND TRAVELLERS SUPPORT GROUP stall - to get the real story.

ARCHITYPE are one of the UK's premier "green" architect firms, working to enhance and improve housing in the environment. This is the way towards housing that people actually want to live in!

Every winter the Government sets up temporary hostels to prevent the "street-homeless" from freezing to death in embarrassingly large numbers. Come to the RESIDENTS ACTION GROUP stall (in association with CHAR and THE BIG ISSUE) to find out why residents think this is not enough.

The Mongolian Yurt houses various photo exhibitions and displays about the work of groups like ACTON HOMELESS CONCERN, CRISIS, a group of Berliners who have taken direct action to deal with homelessness, and more. Come along to find out what a yurt is - and stay to learn more about these diverse approaches to the homelessness nightmare.

Visit the TOOLS FOR SELF-RELIANCE stall, who will collect your old tools, repair them and send them to local redevelopment projects around the world.

Whilst 864,000 empty properties go to waste, people suffer needlessly on the streets. Empty houses are no use to anyone. THE ADVISORY SERVICE FOR SQUATTERS (ASS) and

SQUATTERS ACTION FOR SECURE HOMES (SQUASH) are campaigning to reduce homeless by promoting the rehabilitation and occupation of disused property. Squatters are not people who move into your home while you are on holiday or at the shops! They are a diverse range of people, including many families, who occupy empty property in order to avoid having to sleep on the streets. Shelter have estimated that there are up to 2 million people in Britain who are homeless, at risk of homelessness, or forced to share with other people. Squatting provides a temporary solution to some of their problems - and squatting is still legal. Find out about the campaign to keep it that way at the ASS/SQUASH stand.

FINSBURY PARK HOMELESS FAMILIES group works with families facing the ongoing crisis of homelessness. To find out how you can get involved visit their stall and get chatting.

Alternative health care and information can be found in the Village yurt-tent **HEALING AREA**.

Islington's **REDBRICK HOUSING CO-OP** are hosting a stall with information about housing Co-Ops and how they operate. Community housing for all!

To find out why so many homeless people keep pets visit the **HOPE** stall (Homeless Owners with Pets). If you are a pet owner visit HOPE to find out how you can get veterinary care for your furry four-legged friends.

Meanwhile a cold wind blows in from Wanstead and into the heart of Hackney. The Department of Transport is currently laying a trail of destruction which will demolish 350 houses and make around 1,000 people homeless in order to build a road that no-one but the government seems to want. The **NO M11 LINK CAMPAIGN** will be on hand to tell you about how you can stop the devastation.

The Village **ACOUSTIC PERFORMANCE AREA** will feature a variety of shows, plays and events throughout the day, including **THE DONGAS TRIBE** play at 6 p.m. about the eternal struggle between the earth mother and the orange suspender-clad

brotherhood who are out to destroy her. Details of all performances and running times will be available by the stage.

At the time of going to press we are still hoping to set up a simulated B+B (bed and breakfast) room to show the depressing reality faced by many homeless families who are "lucky" enough to be housed by local authorities. **THE HOMELESS FAMILIES PROJECTS** from FIELD LANE, EARLS

COURT, KINGS CROSS and the CHILDREN NEED HOMES group will be on hand to explain their work, share their experiences and tell you how you can get involved in campaigns for safe and affordable accommodation for homeless families.

THE KIPPER PROJECT and McNAUGHTON HOUSE are both well respected projects working with homeless

people, many of whom have spent years living rough on the streets. Visit their stalls to see how you can help.

LIBERTY (formerly the National Council for Civil Liberties) is currently campaigning against the Criminal Justice Bill whose provisions include plans which could outlaw squatting and life "on the road". This vital campaign to stop the criminalisation of homeless people needs your support now! Visit the LIBERTY and GEORGIA HOPE stalls: Get informed and get involved!

HACKNEY HOMELESS PEOPLES FESTIVAL has its own stall selling food, badges, t-shirts and, of course, we welcome your generous donations towards the cost of all today's events.

There will also be a variety of sculptures, fire-shows, wandering happenings and ambient music taking place throughout the day - you'll just have to come along AND SEE FOR YOURSELF.

STOP PRESS..STOP PRESS..STOP PRESS..STOP PRESS.

You will also find stalls and displays by: Hackney Green Party, Cripplegate Projects, Festival Welfare Services, The Irish Housing Association, Hackney Womens Aid, Radical Roots and many more!

STOP PRESS..STOP PRESS..STOP PRESS..STOP PRESS.

1.1 million council homes had been sold by July 1992 with discounts of up to 70%. Councils have been banned by the Government from spending the money raised on building new houses.

The Housing Corporation states that 100,000 new homes are needed for social renting each year but the Government is only prepared to build 35,000. The number of council properties has fallen from 5 million in 1980 to 3.8 million today.
